REGENERATE SOUTH

Shape the success of the south...

Regenerate South is a private sector initiative using exclusive industry expertise and knowledge to drive investment in the region. The group promotes development sites at the national and international level to stimulate inward investment and showcases the quality of business and investment opportunities available in this part of the UK. Activities of Regenerate South have included a Solent presence at MIPIM 2014 and 2015 and annual lunches in London, which demonstrate to the rest of the UK and beyond that we are a quality brand and open for business.

The 5th Regenerate South Conference in June 2019, will build upon the success of previous events which annually attract over 200 investors and developers. Business South is working closely with both the public and private sector to attract more stakeholders into the area and to showcase our current offer. The Conference will feature high calibre speakers from the property industry and will champion the scale of development in the South. Join us and property sector leaders in shaping the success of the South....

“The ethos of Business South to provide a platform for business in our region to collaborate for the greater good is easily undervalued. But if events such as Regenerate South did not take place, there is no doubt fewer opportunities would present themselves and less good stuff would get done. Business is and must continue to get involved; to share ideas and drive our regional economy forward and Business South is a perfect facilitator for this.

Andrew Hodgkinson, Associate Director at Lambert Smith Hampton”

“As a firm with a strong and long-standing regional presence in the Solent region, we want to actively support initiatives that promote investment and regeneration in the area. As an advisor for large commercial developments, I was delighted to be compering the event which was such an excellent opportunity for investors to find out about the exciting new infrastructure projects in the South.

Oliver Sowton, Partner, Blake Morgan”

“An excellent showcase for development in the South, delivered in an innovative and engaging way with strong speakers who are passionate about the built and rural environment.

Stuart Irvine, Senior Director, Turley”
