

## Do you need funding?

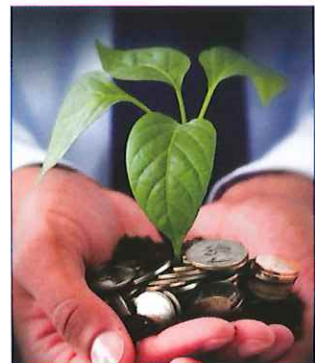

### For your new or existing business?

#### Enterprise First are here to help

- The world of funding has changed dramatically over the past few years and this is great news for anyone running a business or thinking about doing so. However, it also means that there is a greater need to understand which might be the best option for YOU.
- As an independent not-for-profit organisation who has helped local business owners obtain the funding they require for over 30 years, we are well placed to give you a helping hand.
- **Start Up Loans** - The Start Up Loan scheme is a great alternative for individuals looking for business loans to fund their start up. It offers the opportunity to borrow up to £25,000 at a fixed interest rate of 6% per annum and access to free business support to help you succeed.

#### **GOOD NEWS! THIS IS ALSO OPEN TO BUSINESSES WHO HAVE BEEN TRADING FOR UP TO 24 MONTHS.**

- **Crowdfunding** - Enterprise First is pleased to offer a dedicated crowdfunding platform for our clients. By working with Crowdfunder UK we have access to the expertise and support of the industry's best experts to ensure that your campaign has the maximum chance of success.
- **Other loans and grants** - we will be happy to guide you through the options that are now available. We also have a good working relationship with the major banks and can help with both your application and business plan.
- **Business plan checking service** - Regardless of your chosen lending source, we would be more than happy to get one of our experienced business advisers to review your business plan completely free of charge. It is better to identify any potential flaws prior to submission as this will dramatically increase your chances of approval.
